

### Getting Some Naked Sun At Split Rock And the Mohonk Preserve

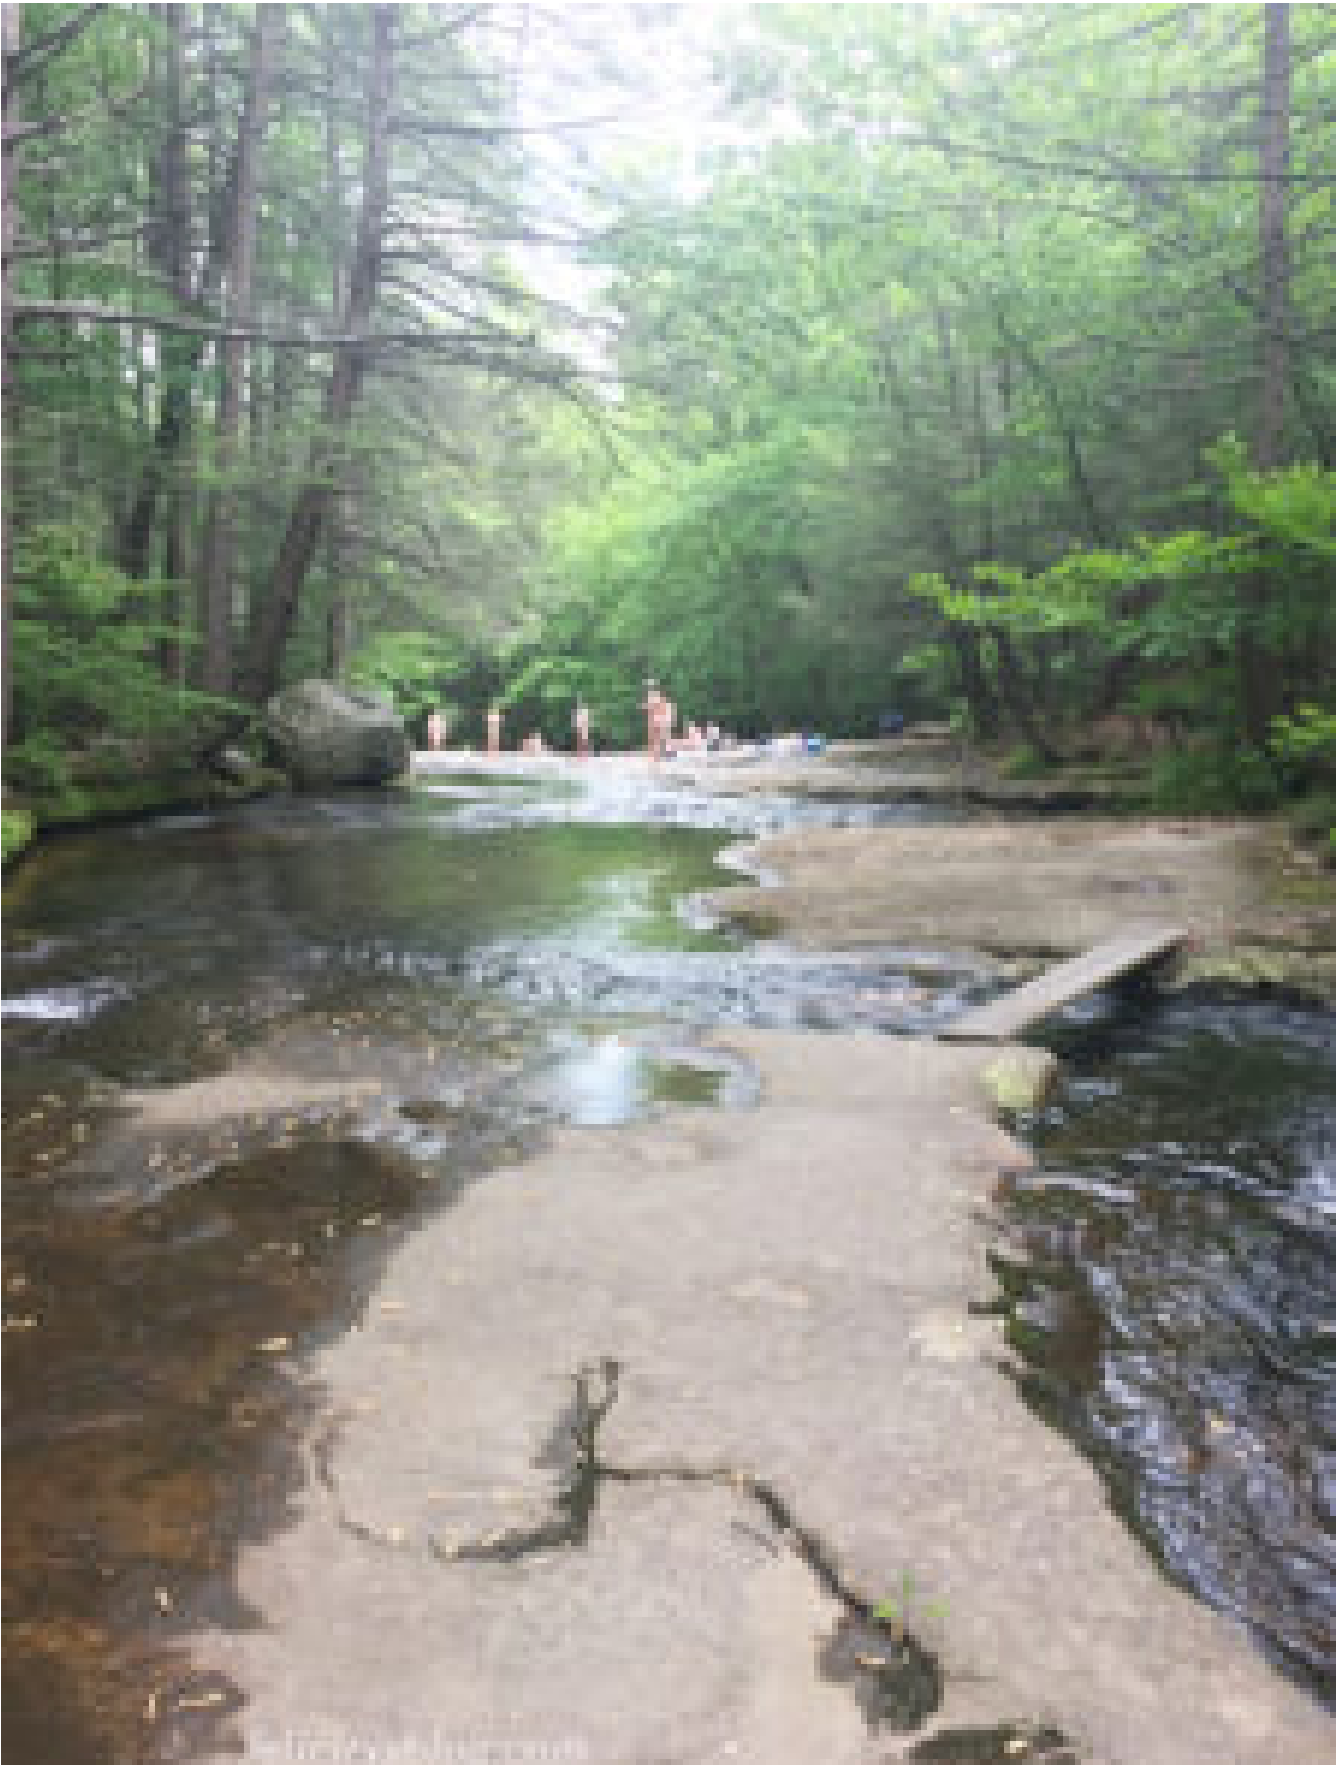

While we still have some beautiful fall days left, I wanted to share a clothing-optional place to go where you can also get your outdoor / fall foliage fix! It's located in the [Mohonk Preserve](#) in the town of New Paltz in upstate New York. It's about an hour and a half drive from NYC.

Mohonk Preserve – We first went there on a sunny day in August (2011). There are numerous hiking and mountain biking trails all over this mountainous rural area, not to mention rock climbing and various other outdoor activities you can do there.
