

We switched to Vimeo for our nudist videos. No More Lost accounts

Written by Unknown

Thursday, 14 September 2017 06:52 -

Twice now I've had YouTube shut down my nudist channel over the nudity. So I got sick of them and switched to Vimeo where nudity is allowed.

My first upload is one showing how you can work naked, outside, without shame. It's also to show how there's no need to be ashamed over your naked body.

Check it out and see what you think, and be sure to share the video, and to follow us.
