The Cape Cod Beach Volunteers of Nudist and Naturist are holding its 16th annual Beach Clean-up. The event is open to all volunteer nudists, naturists, their friends, and anyone that would like to help.

Thanks to our many past volunteers, the time and effort has gained positive understandings with CCNS officials and the local community. Traditional clothing-optional areas have been relatively hassle free. Based on previous successes, these beach clean-ups are scheduled to reaffirm that clothing-optional sunbathers drawn to Cape Cod are environmentally aware and responsible partners in managing this fragile environment and good for local business.

The opportunity to insure credibility with CCNS officials and the community cannot be ignored. Ultimately we envision that traditional clothing optional areas will be restored on Cape Cod.

A pre-clean-up count is important to schedule the services provided by CCNS and the Cape Cod Volunteers. A thank you meal will be held in the Herring Cove Beach parking lot, followed by a chance to relax on a traditional Truro Beach.

The majority of Cape Cod Beach Volunteers of Nudists and Naturists working to restore hassle free clothing-optional use on traditional Cape Cod beaches are members of the following sponsoring organizations.

American Association for Nude Recreation

AANR-East Region
