Your website is a product of your hard work and passion. Therefore, when your site hits a milestone — it shouldn't go unrecognized. To make it easier for you to keep track of your site's achievements, we'll be rolling out a new celebratory notification that will alert you when your site reaches or surpasses a certain *number of views*.

We hope these celebrations are meaningful and motivational for you and that they inspire you to take time to pause, reflect, and celebrate.

If you have the WordPress app on your mobile, we also have a little surprise for you each time you unlock a milestone! Be sure to update your WordPress app to the latest version. If you don't have the app yet, [download it for free on both Android and iOS](#) .

We'd love to hear your feedback! Reach out to us from within the app by going to **My Site**, tapping your photo on the top right, tapping **Help & Support**, and then selecting **Contact Support**

.
